

DESIGN STANDARDS BULLETIN

The *Design Standards* were developed to work in conjunction with the requirements of the Construction and Professional Services Manual (CPSM) of the State and consider

80% less energy than conventional hand dryers, have a 10 second dry time, be made in the USA and have a 5-year warranty. Provide the XLERATOR XL-W (white) or equal in all restroom locations.

- b. Restroom layout should carefully consider the following when locating hand drying stations:
1. Consider the layout of the restroom, placing the hand dryer in a position to aid with the flow of traffic through the restroom.
 2. Distance of the hand dryer from the sink to reduce the amount of water dripped onto the floor by people moving from the sink to the hand dryer.
 3. Place the hand dryers at least three feet away from any reflecting obstacles such as corner walls
-
